Foreword

Welcome to our bi-monthly auction of stamps and postal history which contains a good range of pre-stamp postal history from 1734 to the Penny Red and Penny Black era. Line engraved both on & off cover follows and then a range, including specialised King Edward VII and King George V issues.

I would like to pay tribute to our specialised describer of these issues, Maurice Myhill, whose expertise, gained over 60 years, is exceptional – particularly over shades and printing varieties. Commonwealth and overseas issues are well represented, QEII Great Britain and scarce first day covers are followed, in the final section, by collections and mixed lots. We also welcome back, room bidders and viewers – good luck with all your bidding!

Our next stamps and postal history auction will be had on April 22nd and 23rd and work is well under way, as we head toward the 1000 lot mark. We are always searching for valuable collections and rare items!

Kind regards

David W James
